

# Ibrahim Shehadeh

Hamilton, ON - (705)-917-0558 - [Ibrahim16Shehadeh@gmail.com](mailto:Ibrahim16Shehadeh@gmail.com) - [Portfolio](#)

## Skills

---

- 3 years of experience in application development.
- Skilled in modern frameworks and libraries, such as React, Express.js, and others.
- Experienced in web technologies like the DOM, HTTP and RESTful APIs.
- Database designer and architect in both SQL and NoSQL platforms.
- System design enthusiast, with a focus on object-oriented principles.
- Familiar with AWS Services, CI/CD, Vercel and Netlify.
- UI/UX designer using JavaScript, Figma and CSS to create intuitive interfaces.

## Experience

---

### **PrintHub.Ink, Peterborough, ON**

#### ***Full-Stack Developer***

*Aug 2024 - Feb 2025*

- Designed and implemented inventory management software, reducing excess spending by 20% and eliminating issues of overstocking or selling unavailable stock.
- Optimized UI for mobile use, achieving 100% utilization across production staff by providing seamless accessibility.
- Developed scalable web applications using Svelte and Node.js, delivering responsive, user-friendly tools for sales and management teams.
- Hosted production-ready applications on Vercel with automated CI/CD pipelines, enabling seamless updates and deployments.
- Improved operational efficiency by identifying and resolving bottlenecks with advanced debugging techniques.

#### ***Large Format Supervisor***

*Apr 2021 - Nov 2024*

- Supervised and trained employees, improving daily output in large-format printing operations.
- Acted as a liaison between sales, management, and production teams to deliver tailored solutions for client projects.
- Ensured high-quality output and maintained a 98% on-time delivery rate through efficient workflow management.

## Education

---

### **Durham College, Oshawa, ON**

#### ***Advanced Diploma in Computer Programming & Analysis***

*Sep 2022 - Apr 2025*

- Led a team to build a Flutter-based Korean Learning App during a 3-week assignment, overcoming team limitations by guiding UI/UX designers in creating reusable components.
- Published modular, scalable websites using modern frameworks like Svelte and React.
- Built and deployed REST APIs integrated with secure authentication mechanisms, enhancing data security.
- Designed and optimized SQL databases for high-performance applications.
- Completed AWS Academy courses in Cloud Foundations, Developing, and Operations.
